Step 3: Once you submit a query, if the business exists in the database it will appear in the grid at the bottom of the map with the contact and location information. Click on the row and the map will automatically zoom to the business location and a popup will appear with information about the business.

Step 4: The popup window also contains contact and location information but you can click on the 'Website' link to open the site in your browser. You can also click the 'Email' link to open up MS Outlook to email the business. If you have an application on your computer or mobile device that can make phone calls you can click on the 'Phone' link to automatically make a call.

Besides searching by business name you can also search by city and category. For example, you could click the down arrow on the 'City' search box and choose Oskaloosa. This submission will return all businesses in Oskaloosa. You can choose a category from the 'Category' search box such as 'Accounting' to find a business that does tax preparation. You can also search a combination by choosing 'Accounting' from the category box and 'Oskaloosa' from the city box to find all accounting firms in Oskaloosa.

## Driving Directions

The screenshot shows a web-based driving directions interface. At the top, there are two input fields for starting point 'A' and ending point 'B'. Point A is '405 Madison St' and point B is '106th St, Oskaloosa, Kansas'. A 'Find my location' button is positioned between the two fields. Below the input fields is an 'ADD DESTINATION' button. A 'Driving Time' dropdown menu is set to 'Driving Time'. A 'SHOW MORE OPTIONS' link is below that. A large blue 'GET DIRECTIONS' button is prominent. Below the button, the route summary shows '3.78 miles · 4 minutes'. There are links for 'ZOOM TO FULL ROUTE' and a printer icon. The route steps are listed below, starting with '1. Start at 405 Madison St', followed by '2. Go west on Madison St toward Union St' (0.01 mi), '3. Turn right on Union St' (0.07 mi), and '4. Turn left on KS-92'.
